2025 / 26

Storytelling and innovation have always been at the heart of Qeeboo's creative journey. Each collection, challenges the boundaries of design, exploring new expressive horizons and blending imagination with versatility.

Qeeboo's universe spans across multiple categories, each piece is infused with a sense of wonder and designed to transform everyday spaces into extraordinary landscapes.

This year, we introduce a new series of exciting objects that expand our product categories with a fresh narrative approach.

Among the highlights, Tronco by Brazilian studio Furf reinterprets the natural beauty of a tree trunk into a versatile storage unit. With its sculptural presence and multifunctional design, it adapts to different spaces and uses.

Next, Maum Studio introduce Walking Table, a coffee table infused with playful dynamism.

Designed to appear as if it's moving through space, it brings a touch of pop, an unexpected sense of motion and lightness to any environment.

Additionally, I designed the Toto family—an exploration of bold geometries through a series of dining tables, high tables and low tables with columnar bases. This collection is inspired by the concept of a pillar shaped leg which allows endless possibilities of combinations with different tops. Pairing the tables with the new Tata chairs, creates a balance of strong visual identity and versatility. The design language of the collection gives to the simplicity of generous shapes an almost primitive character—chunky and bold, creating a narrative setting that evokes a fairytale-like imagination.

Expanding our signature collections, Marcantonio enriches the beloved Filicudi family with a new sofa, evoking the Mediterranean essence that has made the collection an icon. Meanwhile, the Saguaro coat hanger, envisioned by me, takes on a luminous transformation, adding an element of light to its distinctive silhouette.

Qeeboo continues to embrace creativity in all its forms, fostering collaborations that bridge design and art. Our 2025 collection is an invitation to explore a world where every piece has a voice, every object sparks imagination, and design becomes an experience. Finally, I want to express my heartfelt gratitude to my incredible team and valuable partners.

**Planter and Champagne Cooler /
Pouf / Lamp / Coffee Table /

Our Turtle is no exception, sustaining on its shell a book pile, a coffee table, a bed table, a soft cushion, a lamp and a planter.

And that's not all: our tireless friend is going to move around even more items with different uses, creating new surprising combinations.

Qeeboo enriches the Turtle Carry collection with the addition of the cute multifunctional turtle, back in a completely new XS version in ceramic. Its shell continues to serve as a base for a variety of accessories, transforming into a pocket emptier, a jewelry tree or a small planter.

Bacana

designed by
Estudio Campana

Chair

Qeeboo collaborates with Brazilian designers Estudio Campana on the creation of a chair. The “Bacana” chair is the first Campana’s project industrially developed using 100% recyclable polypropylene, known for its durability and resistance. Its twisted design spreads freedom and anarchy in large scale. The winding curves and tangled knots of plastic are a reference to the studio’s ethereal, youthful, dynamic language. “Bacana”, which in Portuguese slang means “cool”, perfectly translates the Campana’s vocabulary while using minimum quantities of material, establishing a new standard for sustainable design and mass production. Available in various colors and perfectly stackable.

Rabbit

designed by
Stefano Giovannoni

**Chair / Doorstopper /
Bookend / Lamp / Table**

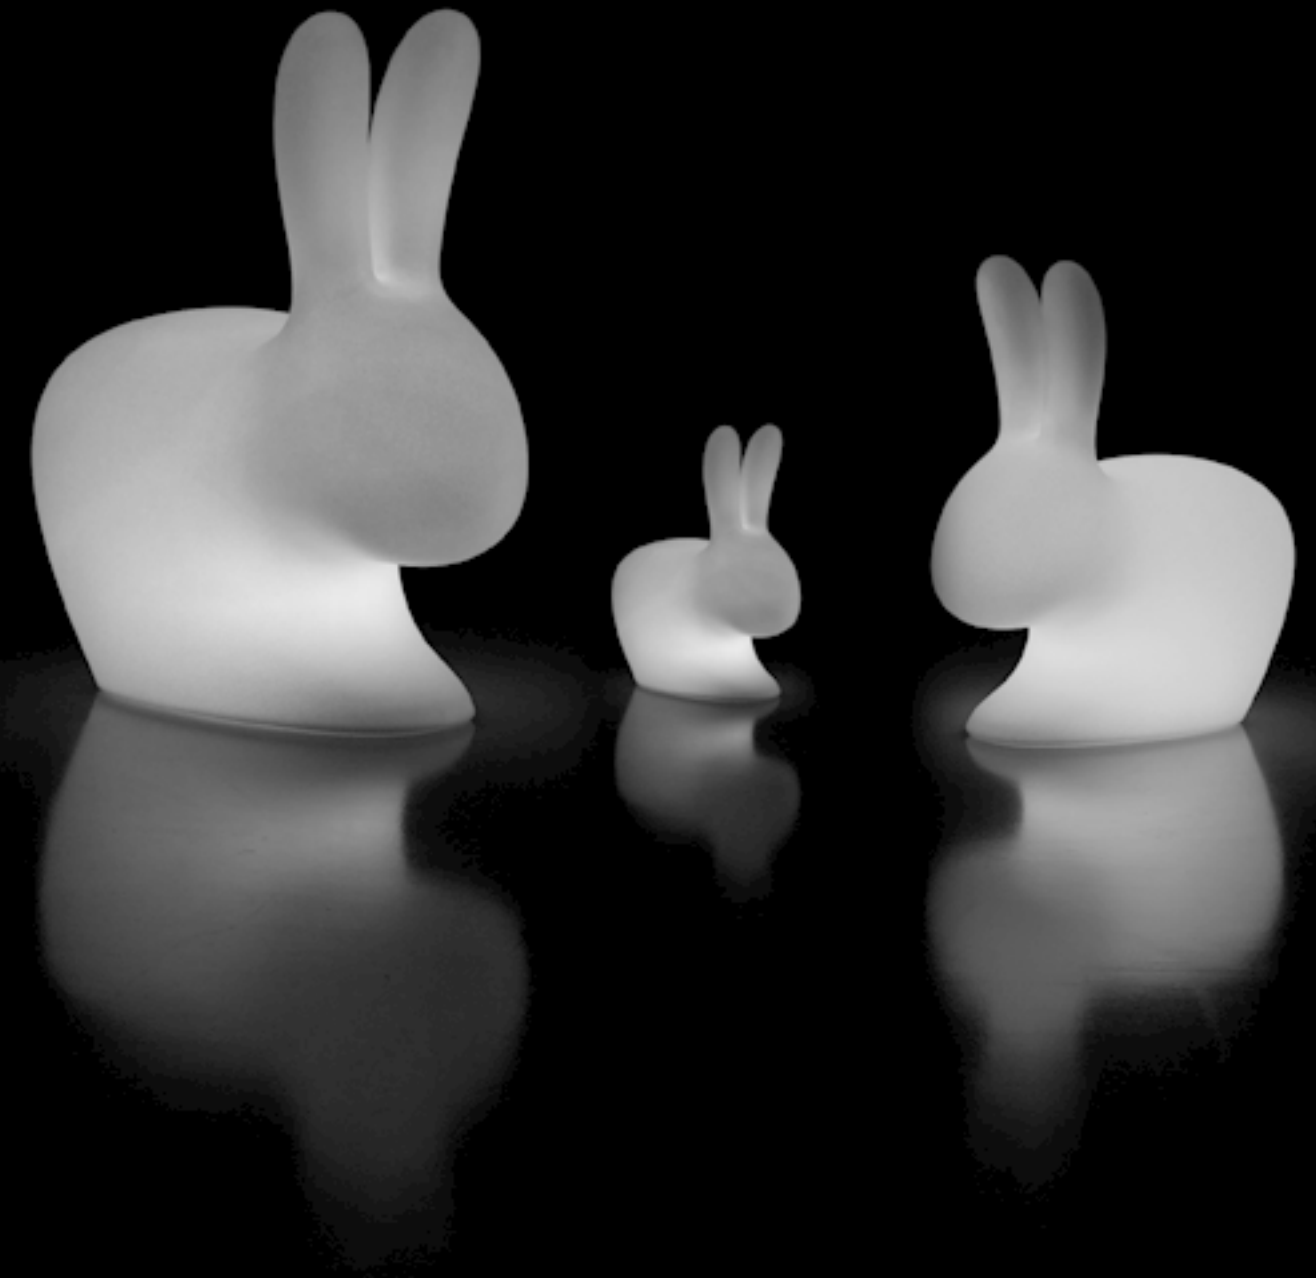

Rabbit chair designed by Stefano Giovannoni immediately became a pop icon, a symbol of love and fertility, which brings good luck and good wishes.

The idea of the rabbit, a gentle, lovable and shy animal, comes from the association of its silhouette with the one of a seat, where the rabbit's ears become the backrest of the chair. Designed originally in two versions, for adults and children. The two rabbits are also available in the LED light version suitable for both indoor and outdoor use.

Over the years the family has seen the introduction of an XS size in three different versions: LED lamp, doorstopper and velvet finished bookend. The Rabbit Tree is a matching table, with two support levels. The lower branch can either be used to accommodate a Rabbit Baby Chair or serve as a handy holder for bags or other objects.

For centuries this object, a symbol of celebration, has been used to bring people together: Mabelle was born with this idea. The Mabelle M is adapted to fit smaller contexts, the sinuous shapes of the bow and the dome give an elegant touch, creating memorable environments in your indoor spaces.

Fallen Chandelier

designed by
Studio Job

Floor Lamp

Fallen Chandelier is a masterpiece by Studio Job, a floor lamp suitable for indoor and outdoor environments. Inspired by their unforgettable art installation named "Fallen Chandeliers", a series of off scale lamps scattered on a large field where once a royal palace stood. As memory of the missing palace only the lamps were left on the ground. Qeeboo transforms this art project into a design object that reflects the same timeless dream. Influenced by 19th century Thonet classic curves, this object travels through times to be the outstanding protagonist in each place it lives in.

Mexico

designed by
Studio Job

**Stool and Side Table /
Portable Lamp /
Planter and Champagne Cooler**

Job was inspired by a legendary figure who lived wrapped in mystery: "the singer without a name". "No one had ever seen her come out of her house, where heavy velvet curtains hid her from the eyes of the curious. The inscrutable singer was the author of a great musical success entitled, in fact, Mexico" (Job Smeets).

The result is a story that plays down on what scares us most, death, meaning that it cancels the features of the face and transforms it into something else. Decorated with the Mexican skull's graphic pattern, a symbol created to exorcise death and celebrate life, it can become an extravagant stool, side table or planter.

**Umbrella Stand /

"Mr Holder was a shark who loved swimming but could not do it. He was mocked by all the other sharks who called him a 'boring little girl'. Poor thing! Then two famous designers with their superpower to reinterpret the simplest objects of daily life, transformed Mr Holder into Killer, an unusual umbrella stand, saving him from his sad destiny" (Job Smeets). From an umbrella stand to a champagne cooler, Killer allows total freedom of interpretation and use in the home and beyond.
